Dear Sir:

In answer to your favor of the 16th inst. would say that I am very sorry that we cannot get to work earlier than April 2d. as I had arranged to do this work this and next week, and it will greatly interfere with other work contracted for, to wait 14 days or more, when I am due (and under agreement must be) in the neighborhood of Boston. However, and as a matter of course we will do the best we can under the circumstances, relying upon your often proved Kindness to assist us all you can when you are ready to have the work done. I shall have occasion to come to Phila. next week on other business, and will call to see if I could not locate Blower and arrange about Gas + Air piping beforehand, so that when we can get at the furnaces

all other preliminary work will have been completed.
